

**Construction & Demolition Waste Management Plan (WMP)**

Please submit this form prior to starting your project.

Permit #: _____	Application Date: _____	Project Sq.Ft.: _____	
Project Name: _____		Project Type: (check appropriate box) <input type="checkbox"/> Commercial Construction <input type="checkbox"/> Residential Construction <input type="checkbox"/> Roofing <input type="checkbox"/> Swimming Pool <input type="checkbox"/> Electrical <input type="checkbox"/> HVAC <input type="checkbox"/> Demolition <input type="checkbox"/> Solar Installation <input type="checkbox"/> Other: _____	
Job Site Address: _____			
City: _____	State: _____		Zip: _____
Applicant Name: _____			Ph: _____
Applicant Address: _____			City: _____ Zip: _____
Applicant Role: <input type="checkbox"/> Owner <input type="checkbox"/> Contractor			

1. How do you plan to dispose of the debris that is generated from your project?

- ☐ I will be using services by Bertolotti Disposal (the City of Ceres franchise waste hauler)
- ☐ I will self-haul debris to _____ (See resource listing included)
(please use back of this page to identify additional recycling vendors to be used)

2. Construction debris generated from the project will be:

- ☐ Sorted on-site ☐ Co-mingled (mixed waste)

3. What type of materials will be generated by your project?

- | | | |
|--|--|--|
| <input type="checkbox"/> Asphalt | <input type="checkbox"/> Bricks/Rocks | <input type="checkbox"/> Cardboard |
| <input type="checkbox"/> Drywall/Sheetrock | <input type="checkbox"/> Glass/Windows | <input type="checkbox"/> Lumber/Wood |
| <input type="checkbox"/> Roofing Materials | <input type="checkbox"/> Composite | <input type="checkbox"/> Concrete/Cement |
| <input type="checkbox"/> Dirt/Clean Fill | <input type="checkbox"/> Metals | <input type="checkbox"/> Salvaged Items (fixtures/furniture) |
| <input type="checkbox"/> Other: _____ | | |

4. If your project is a non-residential addition and/or alteration to a building or tenant space, you must provide verification that all Universal Waste items such as fluorescent lamps and ballasts and mercury containing thermostats are disposed of properly and diverted away from landfills by submitting the Universal Waste Diversion Log (WMPR#3) upon completion of this project. Will your project require a WMPR#3 submittal at the completion of your project?

- ☐ Yes, I will be submitting a WMPR#3 ☐ No, a WMPR#3 is not required

As the owner of, or agent for this permit application, I understand that by signing this form, the permit applicant agrees to the Terms and Conditions, is responsible for the debris generated under this project, and will comply with the City's recycling and reporting requirements, even if the work is performed by a subcontractor or third party. I understand that failure to comply may result in penalties with or without associated fines and/or citations.

CONTRACTOR ACKNOWLEDGEMENT - WMP2

All subcontractors performing any work involved in the named project below, must sign this form to acknowledge their agreement and intent to comply with the CALGreen C&D diversion and City of Ceres C&D Waste Management requirements.

Permit #: _____ Date: _____

Project Name: _____

Job Site Address:

City: _____ **State:** _____ **Zip:** _____

Owner's Name: _____ **Ph:** _____

My signature below confirms that I have reviewed and agree to comply with the California Green Building Standards (CALGreen) Construction & Demolition Debris Diversion Requirements and adhere to City of Ceres C&D Waste Management Program requirements as provided in the Terms and Conditions of this agreement.

[illegible]

City of Ceres
Waste Management Plan for Construction & Demolition Debris
TERMS AND CONDITIONS- WMP3

1. 65% of all construction and demolition debris generated and 100% of asphalt, concrete, and land clearing debris must be recycled.
2. Universal Waste: Non-residential additions and alterations to a building or tenant space shall require verification that Universal Waste items such as fluorescent lamps and ballasts and mercury containing thermostats are disposed of properly and diverted away from landfills.
2. This project shall generate the least amount of waste possible by planning and ordering carefully, following all proper storage and handling procedures to reduce broken and damaged materials, and reusing materials whenever possible. The majority of the waste that is generated on this jobsite will be diverted from the landfill and recycled for other use.
3. Only the City's franchised waste hauler, Bertolotti Disposal, may be hired to collect and transport trash or C&D materials off the jobsite. Further, any materials self-hauled from the jobsite for recycling must be taken to a City-approved recycler.
4. A Waste Management Plan (WMP) must be submitted and approved prior the project start and before a building permit will be issued.
5. As part of the WMP, the Contractor Acknowledgement Form (WMP2) must be completed for each subcontractor working on the project to document that they have read and understand the conditions of the WMP for the project. Waste prevention and recycling activities will be discussed at meetings with all subcontractors and materials to be salvaged will be identified in advance and contractors will be instructed on the procedures for handling all C&D debris.
6. A Waste Management Plan Report (WMPR) that includes all supporting receipts/weight tickets and tonnage calculation sheet (WMPR2), and Universal Waste Diversion Log (WMPR3) must be completed and submitted to the City upon completion of the project. The WMPR will identify the total waste generated for both construction and demolition, the corresponding weight for each material type, total recycled and non-recycled waste, and percentage of recycled waste (min. 65% and 100% of asphalt, concrete, and land clearing debris, and for applicable projects 100% of Universal Waste).
7. All receipts and/or weight tickets from your projects must be retained and provided to the City along with the Waste Management Plan Report (WMPR) prior to final inspection and before occupancy permit is issued.

My signature below confirms my understanding and agreement to the Terms and Conditions stated above and compliance with the requirements of the Waste Management Plan.
